OUR STORY

Created by hand, crafted by nature

Lighthouse is a family-owned furniture and design manufacturer operating across Gauteng and the Western Cape - crafting every piece locally, by hand.

Our furniture embraces the imperfections in nature that add character to each piece. With a rustic look that celebrates natural materials, we believe furniture can bring light and warmth to any home.

We pay close attention to detail and take pride in pieces that are as beautiful and organic as nature itself - built to last a lifetime.
